## LITTLE ITEMS OF LOCAL INTEREST

Paul Hotson, Jeweler and Optometrist, Acme, has complete eye testing apparatus here every Thursday. Entrance through Regal Gas office. Mr. Hotson is an expert in his line.

Jack McDonald of Vancouver is spending the holidays with Gordon Smith.

Mr. and Mrs. E. J. Rouleau left Sunday for a couple of weeks holiday in British Columbia.

Miss Kate Ramsay left on Thursday for a visit to the Pacific Coast.

The Annual picnic of the Gamble Sunday School will be held Friday, July 27, at the creek bridge near the home of S. N. Wright. Everybody invited, come for that means you.

Mr. and Mrs. Geo. Wise and family, and Mr. and Mrs. Eli Poxon were visitors to Drumheller on Sunday.

T. Olive was a Calgary visitor on Saturday last and returned the same day.

I. Guttman and his nephew, Joe Silver, motored to Calgary on Sunday.

Mr. and Mrs. P. Edwards motored into Calgary on Friday and returned on Saturday.

Alex Davis and the Misses Florence and Mable Swansberg attended the dance at Beiseker last Thursday night.

Miss Phyllis Hephner was also a visitor to the Beiseker dance last Thursday evening.

FOR SALE—A number of Spring Pigs, eight and nine weeks old recently weaned. Good breed, Hampshire and Tamworth. Price, \$4.00 and \$4.50 each. Apply to D. E. Charlebois, Box 70, Carbon, Alta.

### FOR SALE

FOR SALE—Two M-H binders \$50; Fifteen barrel galvanized water tank, with cover, \$15; Twelve squares painted tin siding new, \$75; Four disc M-H horse plow, nearly new, \$125; 100 rods used hog wire, good condition, 25c a rod; U.G.G. Spring tooth cultivator, \$60.

C. M. Ross, Swallow

A French-Canadian, living in a small town, owned a bull terrier of which he was very proud. As cold weather was approaching, he wished to fix up a shelter for his dog.

With this thought in view, he entered the general store one day and expressed himself as follows:

"G'morning, Meester Brown. Ah should like to get from you one empty barrel of sugar, with which to make for mine dog a hen-coop!"

With a single stroke of a brush, said the school-teacher, taking his class 'round the National Gallery, Joshua Reynolds could change a smiling face to a frowning one. So can my mother, said a small boy.

## JOINING THE WHEAT POOL IS GOOD BUSINESS

A Toronto Business Man, Owner of Alberta farm Land, Says He Would Not Think of Staying Out of the Alberta Wheat Pool.

J. T. Todd, general manager of the J. T. Todd Lumber Company, Toronto, Ontario, is the owner of a large tract of land in the Crowfoot district in Alberta. He is a staunch member of the Alberta Wheat Pool. In fact so interested is Mr. Todd in the Pool's development that he is endeavoring to persuade non Pool neighbors to join the organization.

In a recent letter to a neighbor at Crowfoot, Mr. Todd says:

"Dear ---

"I have often wondered if you had joined the Wheat Pool. If you have not, I believe if you will consider this matter seriously you will find it is much to your interest to be a member of the Pool. As you know the Pool is only the farmer in business for himself, and the more support the Pool has the better it is going to do for all of us. It is simply a cold-blooded proposition so far as we are concerned and we, like everyone else in business, want to get as much for our labor and wheat as we can. This is a day of co-operation and not only are the farmers doing this but the largest industries, such as automobile and steel, are doing the same. The people in the steel and automobile business are considered the brainiest in the world and they are only the lead which the farmers have pointed out to them during the last five years. Stores are also doing the same.

"I believe if you will consider this matter from your own best interest and the best interests of the community and farmers at large you will decide that YOU CANNOT AFFORD NOT TO BE A POOL MEMBER. I would not think of being out of the Pool myself and I just purchased 320 more acres of land this spring, and as you know, 200 acres of that is now broken and will be in crop next year. All of my land is in the Pool, and in fact, if I had ten times as much land as I have it could be handled in no other way than through the Pool.

"I would like to see you and all the other fellows in the Crowfoot district members of the Pool. If enough would come in we could have an elevator at Crowfoot and that is what we want in time. I believe that with the way the movement is growing we will eventually have it."

## SIGN A Wheat Pool Contract NOW

## SHOE REPAIR SHOP

I have opened a shoe repair shop in Carbon, (next door to Chronicle Office) and am prepared to do all kinds of shoe repairing and make new shoes.

**AUGUST KERBES**

## Noxious Weeds

Your co-operation with Provincial and Municipal authorities is solicited in the control and eradication of weeds. Keep your fields and roadsides free from these unsightly and costly pests.

Weeds reduce the yield and lower the grade of your grain, rob the soil of its fertility and cost money in dockage and transportation. Approximately 6,000 cars were required to haul the screenings from one season's crop in Western Canada to terminal markets. Will you not help to reduce this enormous loss?

Give your local weed inspector and the Provincial Field Supervisor in your district every possible support in dealing with the weed problem.

## "Safety First" on the Highways

At the risk of being somewhat tiresome, the writer of this column feels impelled to once again direct attention to the subject appearing as the title to this article. Justification for such action, if, indeed, any justification is needed, is to be found in certain well established facts.

In the three prairie provinces last year the number of motor cars registered exceeded half a million.

In all three provinces, Governments and municipalities are straining their resources in the construction and improvement of good market roads and provincial highways, and every mile so constructed or improved results in an increase in motor vehicular traffic and an increase in the speed at which most of the cars will travel.

In the improvement of highways, advances are being constantly made in the direction of making them as nearly as possible "safe" through increases in width, reduction in grades and curves, guard rails at curves and danger spots, and a standardized system of marking the highways, indicating routes, turns, curves, railway crossings, danger spots, etc.

On the other hand, year by year, manufacturers of cars are increasing the power and speed of cars, and with gradual price reductions their use is becoming almost universal. It is true, of course, that four-wheel brakes, and other safety devices, are being added, and manufacturers are interested and active in making their cars as nearly "fool proof" as they can be made.

The fact to emphasize, and which it is important should be drilled into the minds of every motorist, is that no matter what Governments and municipalities may do in the matter of road construction, and no matter how strongly and carefully motor cars may be built and equipped from the prevention of accident standpoint, the human element remains. Neither roads nor cars can be made "fool proof," and the unfortunate fact is that the reckless driver is just as great a danger to others as he is to himself. If the highways of the country are to be made safe, it is evident that there must be a decided change in the attitude and conduct of many thousands of motor car drivers, and the public generally.

In an address before the annual convention of the Union of Saskatchewan Municipalities, Hon. S. J. Latta, announcing the early inauguration of a "Safety First" campaign throughout the Province, stated that he had recently read in a newspaper that someone was either killed or seriously injured every forty seconds in an automobile accident in the United States, and that during 1927 approximately 26,618 persons were killed and 793,700 injured in such accidents. He further referred to the fact that at a conference held in the Parliament Buildings of Ontario it was revealed that 1927 automobile accidents cost 422 lives in Ontario, an increase of 124 over 1926, while 3,976 others were injured. It was further reported that fatalities were in the proportion of eight to each one thousand car licenses.

These are appalling figures and certainly indicate the need of somehow controlling this great modern convenience. What was the cause of these accidents? Were they preventable? The results of investigations in the United States show that 11,765 highway accident fatalities in 1927 were caused principally by motorists, of which 3,765 were caused by inattention, 2,706 as the result of speeding, 2,353 through traffic violation, 1,059 from intoxication, and 1,882 from miscellaneous causes.

About an equal number of fatalities, 11,367 to be exact, were caused principally by pedestrians, of which number 3,638 occurred through children playing in the street or crossing in violation of traffic regulations, 3,069 from adult jay-walking, 1,819 through inattention, 1,591 as a result of confusion, and 1,250 from other causes.

As compared with these more than 23,000 fatalities caused by the human element, there were only 1,290 resulting from fog, snow or rain, 662 from some defect in the vehicle, 558 from skidding, 383 from road defects, 244 from strong lights, 244 from poor street lighting, and 165 from confusion in dimming lights. In other words, physical conditions were responsible for 3,426 fatalities as contrasted with over 23,000 for which people themselves were responsible.

Surely such a record provides ample justification for repeatedly urging people to exercise care, to realize that Common Sense will prevent accidents and should be applied, that the Safe way is the Safe way.

### Prominent Visitors From Ireland

Marquess Of Dufferin and Ava Will Make Tour Of Canada

The Marquess of Dufferin and Ava, speaker of the senate of Northern Ireland, who is a son of a former governor-general of Canada, was a passenger on the Empress of Scotland, which arrived at Quebec recently. In a short interview, he declared it was his intention to see Canada from coast to coast on his present stay here. Regarding the industrial situation in Northern Ireland, the marquess declared that, with the exception of a slight improvement in the shipbuilding industry at Belfast, there was little change as compared with a year ago.

### Prepared For Emergencies

Commander Byrd's Expedition Will Be Self-Rescuing Unit

Commander Richard E. Byrd's Antarctic expedition will be a self-rescuing unit and if disaster should befall it no outside aid will be expected.

In a statement to the Associated Press, Commander Byrd said:

"We are to have three aeroplanes and the most up-to-date radio equipment available. When sections of the expedition are separated there will be constant inter-communication, and if trouble should befall one section the rest would immediately go into action as an organized relief body."

Cuticura Shaving Stick 25c.

### Third Wrigley Marathon

Ernst Vierkoetter a Sure Entry in This Outstanding Event

While much dissatisfaction has been expressed by Vierkoetter and his manager regarding the shortening of the distance for the Third Wrigley Marathon, again to be conducted by the Canadian National Exhibition this year, there can be no question about his entering as he is daily training in Lake Ontario.

He seems to be carrying more avoirdupois than he did last year, and experts say that he is a little sluggish. This, of course, at this stage of the game, means little. George Young is the size of a young elephant and swims more or less sluggishly in consequence. Both of them will undoubtedly take this off in the course of their intensive training, so that comparisons are more or less impossible at this time.

Vierkoetter is a great swimmer and unlike most distance men is fast. Witness his feat of last year when he covered the first five miles under 28 minutes each. That should be fast enough to win this year's Marathon.

From a spectacular standpoint the Third Marathon will surpass the Second. The course will be along the sea wall, and will be in full view of the tens of thousands of spectators who will again flock to see the great event.

The entries are now coming in thick and fast and it is estimated that they will exceed those of last year.

## GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

London will add 75 double-decked omnibuses, fitted with pneumatic tires, this year.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

### Many Farmers Join Pool

Estimated That About Half the Wheat Crop Of West Contributed By Pool

The Canadian Wheat Pool, which embraces 142,000 Canadian farmers, continues to add to its membership. In a single day this month contracts were received at head office covering a total of nearly 100,000 acres of grain.

Under the Canadian Wheat Pool system farmers voluntarily sign contracts in which they agree to market all their wheat through the Pool for a period of five years. About half the wheat crop of Western Canada is controlled in this way, and sales by the Pool average over a million dollars for every business day of the year. It is claimed that the Pool has increased the price of wheat to the farmer without increasing the price of bread to the consumer.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

### Did Not Find Out

A popular Scotch doctor who was very sensitive about his age passed away suddenly. One of his friends suggested to the mourners that the secret would be disclosed on the plate in the casket. But when they looked at it, all it disclosed was:

Dr. Caleb McNabb.

### German Prisoners Released

Thousands Of Prisoners Regain Freedom Under Amnesty Bill

The jail doors in Germany were opened for release of thousands of prisoners recently, when the Reichstag passed by more than the two-thirds necessary majority the most sweeping amnesty bill since the success of the Republican revolution.

Among those to be set free under the measure are the last of the Imperial Army soldiers who were sentenced by the Kaiser's court martial for desertion and other offences.

The bill was opposed only by the Bavarian Folks party of the small Hanover party.

After passage of this measure the Reichstag adjourned until the autumn.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

People who don't spend their money as we think they should are miserly.

### Demonstrated Her Skill

Winnipeg's first and only aviatrix, Eileen Magill, demonstrated her skill by soaring to a height of 8,000 feet with the Winnipeg Flying Club's Moth plane, and tail-spinning for the first time since she took her first solo flight.

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

When some men bury the hatchet after quarrelling they go right out and dig up an axe.

Every Home Needs Minard's Lintment.

The boy who turns out as smart as his mother predicts is truly a wonder.

Granite monuments of the Egyptians were cut with copper chisels.

### MINUTES OF CHAUTAUQUA MEETING, FRIDAY, JULY 20

A meeting of the sponsors of the Chautauqua in Carbon this year was held in the Municipal Hall on Friday evening, July 20, for the purpose of organizing and getting everything in readiness for the Chautauqua, which will be held in Carbon on August 4-6-7-8.

Mr. S. N. Wright was elected chairman of the meeting and E. J. Rouleau Secretary pro-tem.

The following officers and committees were elected:

President, J. A. MacDonald.

Secretary, R. J. Fairbairn.

Treasurer, Jas. McLeod.

Light Committee—Messrs. Geo.

Tutt and S. J. Garrett.

Advertising Committee—Messrs.

H. Elliott, John Leiske and E.

Rouleau.

Grounds Committee—Messrs. L.

Poxon I. Guttman, L. Hay, C.

Nash, L. G. McQuade, G. F.

McGregor, J. Atkinson, J. F.

Ferguson, L. Martin, S. N.

Wright, D. Halstead, S. F. Tor-

rance and D. Code.

Piano Committee—Messrs. J. A.

MacDonald and R. J. Fairbairn.

Ticket committees:

Village: Messrs. J. A. MacDon-

ald, A. F. McKibbin and H. N.

Elliott.

South West: Messrs. J. J. Ohl-

hauser, J. Leiske, H. Best and L.

Hay.

South East: Messrs. C. Hed-

strom, R. Brost, R. Thorburn and

F. Barker.

North East: Messrs. J. Clayton,

W. H. Levins, John Burns and S.

N. Wright.

North West: Messrs. D. Halstead

L. B. Hart, J. Atkinson and J. F.

Ferguson.

Miss Byers, the Canadian Chau-

tauqua Representative, was present

and outlined the program for the

benefit of those present and the ex-

planation given convinced the

sponsors that their program this

year was even better than last, and

everyone is looking forward to

Chautauqua Week this year with

more enthusiasm than has ever pre-

valled in the Carbon District for a

number of years.

LET'S ALL BOOST FOR OUR

CHAUTAUQUA THIS YEAR.

### DON'T MISS THE CHAU- TAUQUA!

Mother—This hurts me more than it does you, Billy.

Billy—Don't be too severe with yourself, Mamma.

Mrs. Simmons glanced at the scare headline, "Bank Robbed! Police at Sea!" and laid down the sheet. Now look at that, Ez! she ejaculated, repeating the headline aloud. Here's a big city broke into by burglars and th' city police force all off fishin' somewhere! What a scandal!

(1903) Quebec, Quebec.—The most successful meeting of the Canadian Seed Growers Association closed at the Chateau Frontenac on Saturday, June 16th, with a record demand for registered seed for all Canada, given as follows: Wheat, 77,919 bushels; oats, 56,815 bushels; barley, 16,637 bushels; and alfalfa, 10,748 bushels.

Montreal, Quebec.—Fur prices have advanced since the early spring, as reflected in the three-day fur auction sale recently concluded here. Nearly 50,000 ermine pelts sold at 20 per cent above the level of the previous sale, with a top price of \$3.80; mink was also up 20 per cent, with the highest sale at \$46.50, while wolf pelts brought a ten per cent advance over the price level of early spring.

## Farmers' Marketing Tour

Canadian National Railways' Tour  
To Great Britain and  
Denmark, 1928

Continued.

In the evening, as guests of the Danish Government at a performance of Faust, in the Royal Opera House, we renewed our acquaintance with Mr. Millington Drake, whom we shall remember, not only as the worthy representative of the British Foreign Office in Denmark, but as a friend of Canada and the Canadian Farmers Party. Sitting with us Mr. Millington Drake entertained us with a resume of the opera for those who were not familiar with the great work. During the evening we were honored by the appearance in the Royal Box of King Christian, a gracious courtesy which was acknowledged by representatives of the party calling at the palace to sign the Royal book, which is the Danish equivalent of our Canadian custom of leaving cards. The next day the King telegraphed Mr. Millington Drake, as follows: "Please thank the Canadians for their visit to the Queen and me. We hope they will keep a pleasant remembrance of their stay in Denmark."

Before leaving Copenhagen on our return to Esbjerg, we had two important calls to make at the Kolle Kolle Red Danish Cattle breeding farm, and the Dastrup Landrace pig breeding station.

The Kolle Kolle farm, owned by 800 Zealand farmers, has been responsible for many interesting and successful breeding experiments. The herd of 70 pure bred Danish Milch cows, which we inspected was of remarkable uniformity and noteworthy for their high butter fat test and their copious middle and spring of rib.

On leaving the farm the party received a surprise invitation from Baron van der Neergaard to visit his home and farm, an experience which was much enjoyed. The Baron, who is farming a large acreage, was able to show the party a beautiful estate and a particularly fine herd of cattle.

The visit to the Landrace pig breeding establishment revealed something of the secret of the remarkable uniformity which characterizes the Danish hog. Here it was found that the best bacon hogs were obtained by crossing the pure Yorkshire type with the Landrace pig, a hardy native breed which is in itself rather coarse and lacks the length so desirable for bacon. Today breeding centres are maintained in different parts of the country, some for Yorkshires, and others for the Landrace from which the Danish farmer is able to buy pure breeds of both breeds for crossing purposes. The Dastrup station which we visited is the oldest, largest and best in Denmark.

Back in Esbjerg, we were introduced to one of the most remarkable achievements of the Danes. The loss of so much valuable territory to the Germans, in 1864, gave Denmark the choice of emigration or an attempt to reclaim to agriculture on a large scale vast stretches of practically uninhabited country. These were the sandy wastes along the West coast of Jutland, where for miles inland no human habitation was visible. Such of the land as was not pure drifting sand was covered with gorse and heather.

The Danes bent their energies to the latter course, with the result that today there are 350,000 acres in pine forest and 1,200,000 acres, nearly two-thirds of the total original heath, have been reclaimed by tree planting.

Time did not permit us to visit the older plantations, but a trip to one of the ten to fifteen years-old plantations outside Esbjerg, filled us with amazement. A sandy, windswept, barren, sour plain there had been turned into a productive and beautiful country, thousands of acres of which are pasture land, capable of supporting a fair live-stock population.

A trip to Ribe, the oldest town in Denmark, with quaint and narrow streets; then a farewell on behalf of the citizens of Esbjerg, completed our stay in Denmark, a gallant little country which we left with regret. Our sincere appreciation was telegraphed to the Prime Minister and through him to the people of Denmark.

We also telegraphed our thanks to the British Charge d'Affaires, who had proved himself not only a worthy representative of the British Empire, but had become almost a comrade.

Little need be said of the return voyage across the North Sea except that, for the first time, there was a reduced attendance at the dining table.

London again! No place like London! After all, it was good to hear around us our mother tongue, even if spoken with a different accent! Our first morning was spent at leisure, but in the afternoon we were to have the honour of a reception by the King and Queen, and tea at Buckingham Palace. If we had felt some trepidation, it would have been excusable, but how little need for any such feeling. The shyest person would have been put at ease by the kindness of the King, the graciousness of the Queen. Her Majesty had been indisposed for some days, and the Royal party had only returned

The London Hunt and Country Club is widely known for the excellence of its afternoon teas. For several years this progressive club has used no other tea but Red Rose Orange Pekoe—a blend that leads all others in flavor and full-bodied richness. Put up only in bright, clean aluminum packages. 15EW

less than one hour before from Sandringham, nevertheless she insisted on meeting the Canadian farmers' party, her dress ornamented by a maple leaf brooch which had been presented to her twenty-seven years ago when she visited Canada as the Duchess of York. His Majesty was thoroughly interested in the Danish tour and asked many questions about it. This was the crowning honor in a tour already rich in privileges accorded.

Our next engagement brought us to a sphere in which we were the experts. This was our visit at our Brandon, Suffolk, to the Ministry of Labor's Training Farm for Overseas Settlement, when we were asked frankly to give our impressions of what was being done to transform groups of unemployed young men into farm workers for Canada. Here on the beautiful Weeting Hall Estate was the most interesting and the most hopeful experiment we had seen. One of the biggest problems which are Britain's legacy of the war, and of post-war conditions, is that of knowing what to do with the able-bodied, willing young men for whom there is no employment and for whom there is at present no recourse but the "dole" which it should be explained is not a charity, as is so often believed in Canada, but is available under the national scheme of unemployment insurance. The Ministry of Labor's training scheme is one of the ways out. Young men desiring to settle in the Dominions, are given a preliminary training suited to the particular Dominion to which they hope to go. Others are given training which will fit them for new occupations in the Old Country. The group which we visited was being trained for Canadian farming. With Canadian implements, they were being taught, by men with Canadian experience, hitching, harnessing, ploughing, milking, the use of the axe and of such tools as are employed in general handiwork. (To Be Continued.)

## Canada Colonization Association

Hope To Place 3,000 Families On  
Land This Year

The Canada Colonization Association hopes to record this year the placing of 3,000 families on privately owned farm lands in Canada. It is now within about 300 of this figure, according to T. O. F. Herzer, manager of this subsidiary of the Canadian Pacific's Department of Colonization and Development. Since its inception on January 1st, 1925, the Association has placed 2,679 families on 650,357 acres; this year's contribution up to the end of May, being 335 families settled on 64,114 acres. With Ontario now being included in the circuit of the Association's activities, the placements for the present year, up to May 31st, run as follows: Ontario, 71 families placed on 2,611 acres; Manitoba, 54 families on 14,383 acres; Saskatchewan, 97 families on 20,132 acres; Alberta, 88 families on 25,652 acres; and British Columbia, 25 families on 1,336 acres.

Running out of gas is very annoying on country roads, but it is really embarrassing to those travelling by air with no land in sight.

No one is truly law-abiding until he has learned to rule himself and to obey the voice within.

HE DIDN'T THINK  
DYSENTERY  
COULD BE RELIEVED

Mr. John Melling, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## IS VISITING CANADA

Hon. Ian Baird, an Oxford student, son of Lord Stonehaven, governor-general of Australia, who arrived in Canada a few days on the White Star liner "Albertic," to spend his summer vacation "mucking" in mines at Amos, P.Q., and Timmins, Ont.

## SUNDAY SCHOOL LESSON

JULY 29

THE FIRST FOREIGN MISSION-  
ARIES

Golden Text: "Go ye therefore, and make disciples of all nations, baptizing them into the name of the Father and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever I commanded you; and lo, I am with you always, even unto the end of the world."—Matthew 28:19, 20.

Lesson: Acts 13:1-52.

Devotional Reading: Psalm 67.

## Explanations and Comments

The First Foreign Missionaries Chosen and Ordained, verses 1-3. In the flourishing Christian church at Antioch there were numerous prophets and teachers, men of special inspiration. Among these was the energetic and lovable Barnabas of Cyprus. Others included Symeon the Black—doubtless an African; Lucius of Cyrene (the province in North Africa lying next to Egypt), who perhaps was one of the Cyprian evangelists who had established this church at Antioch (Acts 11:20); Manaen—another form of the Hebrew Menahem (2 Kings 15:14)—who was the "foster-brother" of Herod the Tetrarch (Herod Antipas, son of Herod the Great), and was seemingly a person of some social importance, and, finally, Paul of Tarsus. Apparently the historian meant Paul's place, at the end of the list, to be emphatic, just as was Barnabas, at the beginning of the roll. These five leaders of the Antiochian church were evidently Grecian Jews.

"We know nothing of Symeon and Lucius and Manaen, and yet it is good to have their names, for they remind us of the host of faithful witnesses of the truth who stood back of the Christian movement, and encouraged its leaders to carry on. George Eliot, in one of her fine tales, speaks of 'the faithful who are not famous.' What should we do without them? All great causes demand great leaders. Without Paul and Peter and Barnabas the early Church would have been as an undisciplined army without officers, or as a rope of sand; but Niger and Lucius and Manaen were needed as surely as Barnabas and Paul."—The New Outlook.

While the church at Antioch, under the leadership of these five men, was carrying on its services of worship, prayer and fasting, an advance movement was initiated under the direction of God. It is probable that the prayer of the church was "awaiting upon God for special guidance on a matter already occupying their thought; this matter was surely the question of a forward movement into the Roman Empire." Paul and Barnabas, indeed, may have been thinking of this question when they had brought with them from Jerusalem John Mark (Acts 12:25).

## Extending Air Service Westward

Contracts As Far As Winnipeg  
Planned For Next Year

A gradual extension of the air mail services now successfully operating in the east to the west is contemplated by the Post Office Department.

Flyers have started out to determine the best route for a service between Montreal and Winnipeg and whether aeroplanes or hydroplanes are the best adapted to the service.

Contracts as far as Winnipeg are planned for next year and the department has in view later an extension of this service across the prairies although to that end no definite steps will be taken for a while.

A man always thinks that appearances are deceitful when they are against him.

**THE Firestone**  
Dealer's trained service men apply tires and tubes right, and help you keep them in condition to get more mileage. They service every tire they sell. This is one reason why Firestone Gum-Dipped Tires are breaking mileage records around town and everywhere else. Firestone builds in the miles—Firestone Dealers get them out for you. They save you money and serve you better.

Always put a Firestone steam-welded, leak-proof tube in your Firestone tire

GUM-DIPPED TIRES

## Homestead Entries

906 Homesteads Taken Up In Four  
Western Provinces During May

Homestead entries for Dominion lands granted in the four western provinces during May, totalled 906, as compared with 640 for the same month last year. By provinces, Manitoba recorded 44, as against 71 for May, 1927; Saskatchewan, 266, as against 287; Alberta, 517, as against 265; and British Columbia, 79, as against 17. For the five months of the current year entries totalled 3,885, as compared with 2,168 for the smaller period of 1927. By provinces, Manitoba recorded 207, as against 253; Saskatchewan, 1,221, as against 1,038; Alberta, 2,249, as against 840; and British Columbia, 208, as against 37.

**Don't Make a Toy  
Out of Baby**  
—Babies Have Nerves—  
By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness. Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

## CONSERVATIVES WIN IN B. C. BY LARGE MAJORITY

Vancouver.—The Liberal Government which has held power in British Columbia for the past twelve years, and which has been led by Premier J. D. MacLean for the past year, was defeated in the provincial elections, and the Conservative party, under the leadership of Hon. Dr. S. F. Tolmie, was elected to power.

The Premier and at least two of his ministers were defeated. Dr. Tolmie was elected in Saanich.

Premier MacLean was defeated in Victoria; Hon. Dugald Donaghy, minister of finance, in Vancouver; Hon. E. D. Barrow, minister of agriculture, in Chilliwack.

Liberals have been elected in New Westminster, Cranbrook, and Nanaimo.

Conservatives have been returned in Vancouver six, Victoria four, Saanich, Burnaby, South Vancouver, North Okanagan, Chilliwack, Cowichan-Newcastle, Comox and The Islands.

The Liberals gained Cranbrook from the Conservatives, while the Conservatives have gained all six Vancouver seats, five from Liberals and one from the now defunct Provincial party; Chilliwack from Liberals; Comox from Independents; Burnaby from Labor; South Vancouver from Labor.

Mrs. Mary Ellen Smith was defeated by R. H. Pooley, in Esquimalt. Of the 48 seats contested in the provincial election of 1921, in the Legislature, the Liberals carried 23 in the last contest; the Conservatives, 17; Labor 3; Provincials, 3; Independents, 1; and Independent Liberals, 1.

### Receives New Appointment

**Dr. Delury Of Saskatchewan University Will Go To Manitoba**

Winnipeg, Man.—Dr. J. S. Delury, of the University of Saskatchewan, will succeed Dr. R. C. Wallace as commissioner of mines and as professor of geology and mineralogy at the University of Manitoba. The appointment was announced by the government.

Prof. Delury expects to make the necessary arrangements with the University of Saskatchewan to make it possible to take up his work here September 1, when Dr. R. C. Wallace leaves to take over the position of president of the University of Alberta.

Dr. Delury is well known in Winnipeg and Manitoba. He was for many years the right hand man of Dr. Wallace in the department of geology and mineralogy at the University of Manitoba. In that capacity he rendered valuable service to the province. One of his latest contributions was a voluminous report which he prepared two or three years ago for the industrial development board.

It is only a year ago, since he left to organize the department of geology at the University of Saskatchewan as professor in charge of that department.

Dr. Delury is a graduate of the University of Toronto and of the University of Minnesota, and was in charge of the department of geology in the University of Idaho before he came to Manitoba in 1913.

### Russia Buys Canadian Wheat

**Further Sales Of Canadian Wheat To Russia Are Announced**

Winnipeg.—Further sales of Canadian wheat to Russia were announced at the grain exchange here. That country has taken another 1,500,000 bushels, bringing her total purchases during the past fortnight to 9,500,000 bushels.

A good portion of the grain was No. 3 Northern Manitoba. Italy is credited with the purchase of one million bushels of Durum wheat recently, mostly from the local market.

Demand from other European countries remains indifferent partly because of increased native supplies and partly on account of prospects for large crops on the North American continent this year.

W. N. U. 1743

## Canadian Militia Promotions

**A Number Of Transfers and Promotions are Announced**

Ottawa.—The rank of "Brigadier" recently introduced in the British Army has been adopted in the Canadian Militia, with effect from July 1. The temporary rank of "brigadier" is in substitution for the temporary ranks of colonel commandant and colonel-on-the-staff.

Orders promulgated from defence headquarters announce a number of important promotions in the Canadian Militia. Among them are the following:

Major E. H. Cope has been promoted to the rank of lieutenant-colonel and to command the Vancouver Regiment with regimental headquarters at Vancouver, B.C., vice lieutenant-colonel B. G. Wolfe Merton, M.C., who has been transferred to the reserve of officers.

Major W. W. Henderson has been promoted to the rank of lieutenant-colonel and to command the 2nd regiment the Alberta Mounted Rifles, with regimental headquarters at Pincher Creek, Alta., vice lieutenant-colonel J. H. Jackson, transferred to the reserve of officers.

### May Establish Trade Treaty With Germany

**Flour Would Lead Canada's Export List, Says N. B. Palmer**

St. John, N.B.—Canada export trade with Germany will be greatly increased under favorable treaty agreements which the Dominion is now endeavoring to establish with that country, said Max B. Palmer, of Calgary, newly appointed assistant Canadian Trade Commissioner to Hamburg, who was here in connection with a tour of the Maritime provinces with a view to developing Maritime export trade with Germany.

In speaking of Canada's trade conditions with Germany, Mr. Palmer stated that at the present time Canada is discriminated against as a result of existing agreements which particularly affected the export of flour as well as other commodities. Should the trade treaties being advanced by the Canadian Government go through successfully, Mr. Palmer is of the opinion that flour would lead Canada's export list to Germany.

### Receive Royal Pictures For National Gallery

**Gift Of King George Replaces Portraits Destroyed By Fire**

Ottawa.—Pictures of King George, Queen Mary, Prince of Wales, King Edward and Queen Alexandra, were received by Eric Brown, director of the National Art Gallery, on behalf of the Canadian Government. These portraits are the gift of King George and will replace the pictures of these distinguished members of the royal family which were in the old parliament buildings but were destroyed when the buildings were burned in 1916.

### Considering Air Insurance

**Canadian Companies Believe People Will Want This Protection**

Ottawa.—Canadian insurance companies are considering special forms of insurance for civilians interested themselves in aviation, it is learned. Recently a conference of actuaries and insurance medical authorities is said to have discussed the matter, realizing that soon the man who drives his own plane will be in the same category as the man who drives his own car, so far as the demand for insurance is concerned.

### Will Tour Canada

Quebec.—Fifty members of the National Chamber of Commerce, of Great Britain, headed by Counsellor James Stanworth, president of the Chamber, arrived here and immediately proceeded to Montreal by train. The party will tour Canada, staying in Montreal two days before going to Ottawa.

### Federal Government To Raise Pigeons

Ottawa.—The Dominion Government is going in for pigeon-breeding. The object is not, however, to increase the food supply of the country. It is to breed and train pigeons for purposes of communication. The department of national defence is to have charge of the work.

## PREMIER-ELECT FOR B.C.

Hon. Dr. S. F. Tolmie, leader of the Conservative Party in British Columbia.

### Clark's Status Discussed

**Duties Of British High Commissioner In Canada Debated In House**

London.—The British Government's newly appointed high commissioner in Canada, Sir William Clark, who is sailing for Ottawa shortly, and the duties of the newly created position were discussed in the House of Commons when P. J. Hannon, Conservative, Moseley, asked whether the High Commissioner would take precedence over the representative of all foreign powers at Ottawa, and if in submitting proposals respecting British commercial interests to the Government of Canada, he would have full diplomatic support of his Majesty's government in Britain.

Right Hon. L. C. M. S. Amery, Dominion Secretary, in replying reminded the questioner of the similar case of the Dominion high commissioners in Britain, who ranked immediately after cabinet ministers, but not before foreign ambassadors.

It was of course contemplated that the high commissioner of Great Britain, in Canada, would be authorized to make representations on commercial questions to the Canadian government when instructed to do so by His Majesty's government in Great Britain, the minister said.

### Statistics Show Crime Increase In Canada

**Convictions Recorded In 1927 Higher Than Previous Year**

Ottawa.—Crime is increasing in Canada. Latest official statistics available show that for the year ended September 30, 1927, the number of convictions recorded reached a total of 212,075 as compared with 187,361 for the preceding period ended September 30, 1926.

The number of indictable offences returned for the year under review, according to the Dominion Bureau of Statistics, was 23,526 charges and 18,835 convictions. Summary convictions for non-indictable offences amounted to 193,240.

## Norwegian Journalists Visiting Canada

Party of representative Norwegian journalists now touring Canada, under arrangements made by the Canadian Pacific's Department of Colonization and Development—visiting the various Norse settlements in the Dominion and gaining first-hand impressions as to immigration prospects.

## Would Export Alberta Gas

**Plan To Pipe Waste Gas To Saskatchewan, Manitoba and Montana**

Lethbridge, Alta.—Alberta's problem of waste gas seems closer to solution and it appears to lie in the piping of the surplus gas to Saskatchewan and Manitoba cities, and the cities of Montana.

In an interview here, Hon. Charles Stewart, minister of the interior, gave it as his opinion the shipping of gas 800 miles to Winnipeg, serving intermediate cities, including Moose Jaw and Regina, was feasible.

Again exportation of gas from the Rogers' field, southeast of this city, is now possible under Federal permit. The Range Oil and Gas Company has spudded in another well on the Rogers dome just south and east of the 60,000,000 foot producer, and the plans of this company and the Hardrock Oil Company, of Great Falls, who will drill the wells, are to have gas flowing through their pipe line into Montana by winter. A pipe line will be built to the Montana boundary, it is announced, either to link up with the present pipe line to Great Falls or as a separate line into that city.

### Feeling Against Nobile

**Leader Of Italia Expedition Under Criticism In Norway**

Oslo, Norway.—Feeling against General Umberto Nobile, leader of the Italia expedition, is making itself felt in Oslo.

The newspaper Aftenposten removed a picture of the general from a show case during the day as threats had been made to destroy it.

Several Danish explorers have proposed Fridtjof Hansen as chairman of a court of honor to investigate Nobile's leadership of the expedition. Hansen declined this but said that he thought there were several events in Nobile's expedition that need closer investigation.

### No Claims Paid This Year

**Government Does Not Intend To Pay Reparations Now**

Ottawa, Ont.—Although the War Reparations Commissioner has made his report which was made public last season, the government does not intend to pay the claims for a year. Part of the money for this purpose was included in Hon. James A. Robb's surplus. There was much disappointment among the big claimants at the size of their awards. These may be revised by the Government, but the 3,000 small claimants will have to be satisfied with what Reparation Commissioner F. Riel found due them.

### Has New Financial Plan

Victoria, B.C.—Reconstruction of the financial structure of the Canadian National Railways, in a plan to be submitted to the Government at the next session, was intimated by Sir Henry Thornton in an address here to the Kiwanis Club.

## ASSASSIN OF GEN. OBREGON IS IDENTIFIED

Mexico City.—Police headquarters semi-officially announced that the assassin of General Obregon had been identified as Jose de Leon Toral, an art student, aged 23, a native of Lagos, in the State of Jalisco.

He is said to have lived at Guadalajara, but to have come to Mexico City six months ago seeking work. Police said they found upon him a picture of the Catholic priest, Miguel Augustin Projuarez, who was executed in connection with the attempt to assassinate Obregon with bombs last November.

It was said that de Leon Toral refused to admit accomplices and insisted throughout his grilling that he alone was responsible.

Federal district police arrested and held for investigation Emilio Casado, proprietor of the restaurant where Obregon was killed at San Angel, and all twelve employees of the place.

Government censorship of despatches was still in force.

El Universal Grafico says that the mother and wife of the assassin have been arrested and are being held.

In a signed statement, President Plutarco Elias Calles declared that the assassin of General Obregon had admitted the motive of his crime was religious fervor.

There were innumerable rumors in the capital of uprisings and other killings, but all proved to be untrue. Intense excitement prevailed everywhere, but neither the newspapers nor the government had any information of trouble breaking out anywhere in the republic. The war department issued an official communique saying that the army would guarantee the public peace.

President Calles was surrounded by a strong guard. All saloons were closed, as were theatres and other places of amusement.

Many of those known to be opposed to Obregon, fled from Mexico City before the fury of his friends and supporters, which were kept in bounds only by police precautions. The headquarters of Luis Morones, Secretary of Labor, and Obregon's greatest political opponent, were surrounded by a guard at the instance of President Calles, who feared that there might some attempts at violence.

### Libel Action Settled

**Action Was Brought By Cardinal Hayes Against London Newspaper**

London.—Settlement of a libel action brought by Cardinal Hayes, of New York, against the Sunday Express was announced in the King's Bench division.

Counsel stated that a paragraph appearing in the newspaper had said that the cardinal was a man who excused murder of Kevin O'Higgins, Irish Free State minister of justice, on the ground that he was "an English hireling."

Counsel said that the defendants never suggested for one moment that the statement, which had been made by a contributor, could be justified and promptly did the honorable thing by apologizing for having published it.

### Will Succeed Dr. Wallace

Winnipeg.—Dr. J. S. Debury, of Saskatoon, will succeed Dr. R. C. Wallace, as commissioner of Mines of Manitoba, and as professor of geology and mineralogy at the University of Manitoba. Dr. Debury expects to take over his duties when Prof. Wallace leaves to take the position of Professor of Mines at the Alberta University.

### Accepts Kellogg Treaty

Brussels, Belgium.—Foreign Minister Paul Hymans has handed to the United States embassy Belgium's acceptance of the Kellogg draft treaty for the outlawry of war.

### Have Restored Titles

Prague.—The Czecho-Slovakian government has introduced a measure in parliament restoring medals and titles which were abolished after the revolution.

**THERE** is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin is the trade mark registered in Canada, indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

Copyright, Canada, 1925

### CHAPTER XXVIII.—Continued.

Helmi slept the sleep of utter exhaustion, for when she awakened the gray dawn was showing at the mouth of the cave. She looked around for the dog, but she was gone. The pain in her breasts was like a thousand knives twisting and torturing her, and a cry of utter anguish broke from her lips.

Then she remembered the horror of the night before and the terrible deed she had done. She saw again that face of fright and heard the scream.

She went to the mouth of the cave and saw below her the river, running so fair and peaceful and serene. The early morning light, platinum gray, was lying gently on the river's bosom, from which soft little veils of mist were ascending. Helmi shrank back from it in fright, remembering the man who had buried his troubles in its treacherous depths. She clung to the side of the cave pleading with the river not to tempt her. Watching its current she seemed to see Jack's face again gliding away from her. Then came little Lili's face, so cool and peaceful and smiling, with no more fever or pain, and an irresistible impulse to cool her burning, tortured breasts, in the quiet green waters of the river drove her forward.

For one brittle moment she swayed toward the stream. Then something bounded against her, throwing her backward to the grass, and her friend of the night before

was beside her, whimpering, whimpering, with a tenderness that Helmi knew, for it spoke a universal language. She crawled back in the cave, wide awake now, but writhing in her misery. Then came Cleo, the dog, with something in her mouth which she laid in Helmi's arms—a little furry, cuddly puppy, with a fat little body and cool, soft, eager, quivering lips.

When Helmi awakened with a brain cleared of her midnight terrors and a body eased of its pain, she noticed the revolver, which through all her mad flight she had clutched in her hand. Horribly it recalled to her the madness of the terrible night and the loathsome deed that she had done. And yet—and yet—now that her brain was clearer, she could not recall that she had really fired the weapon. Her hand had been on the trigger when the lightning came.

She sprang toward it eagerly, for it could tell her what she wanted to know. Opening the chamber with trembling hand, she found every cartridge was in its place!

Then the soul of Helmi was born anew in thankfulness to God, and in a faith in His goodness that never again wavered, for God had saved her from sin. God had intervened to save her when her heart was farthest from Him. God was her friend. He loved her—He would not let her sin! With His own arm He had saved her.

Helmi went to the opening of the cave and drank in the beauty of the morning. The sun had just come over the edge of the earth, sending a sheen of gold and rose along the top of the mist that filled the valley below. As she watched, enraptured in her new-found gladness, the mist began to form into wisps and threads that curled and rose over the surface of the river, their upper ends twisting and thinning into the air.

A song burst from Helmi's heart, a song of gladness and love and faith—a song that the Blue Book had taught her:

"When the mists have rolled in splendour from the beauty of the hills,

And the sunshine falls in gladness on the rivers and the hills."

There was a whimper beside her. Cleo had come out of the cave. Helmi fell on her knees beside her, and kissed her honest forehead. "Cleo! Cleo!" she cried, "the dog God sent!"

### CHAPTER XXIX.

Helmi reached her own house that morning before the people of Eagle Mines were stirring. It was a sweet morning, without a trace of the storm of the night before, only that the air was washed clean and tasted cool in the mouth like a drink of spring water. She walked with her old sprightliness and without a single trace of fatigue.

Cleo followed her with one pup in her mouth, and Helmi carried the other two. The door of the house was not locked, and Helmi soon had a fire burning and a pot of porridge cooking for herself and the dog.

The house showed the traces of the hunting parties that had made it their abode, and from the fact that they had left the house dirty and littered, Helmi knew that they were not real hunters, but only city men out looking for game. The true hunter will leave everything as he finds it; this is the law of the wilderness. But in Helmi's heart this morning there was no resentment as she swept and scrubbed. She had received so much from God that she could easily forgive any of His children, and as she worked she sang.

When the porridge was cooked and the condensed milk poured over it, she called Cleo, who had stayed outside until she was invited to enter. "Come in, Cleo," she said, "my house is yours. You and I will never part, and your pups are welcome, too. Come on!" Cleo came in, with a pup in her mouth, smiling as broadly as she could without altogether dropping the pup.

The dog's hunger was pathetic. All the more because it tried so hard not to appear ravenous. This was evidently her first good meal for several days. The puppies, tired out by their adventurous night, were soon fast asleep in a box in which Helmi had placed an old coat of Jack's, and in which they curled up into an indistinguishable mass of sable and white wool, with only one little round head showing.

When Cleo had eaten her breakfast she stood at attention, her eyes

fixed on Helmi's face, as if she were trying to read her mind.

Helmi patted the dog's head. "Take a sleep, Cleo," she said, kindly; "when I get my house cleaned up and my clothes dried I will tell you all my plans. I do not know where we are going to live, you and I and our families, but I know we are going to live together. I heard many times in the city that no one wanted a girl with a baby, so I suppose a girl with a baby and a dog and three pups is not wanted either. But still I have faith in God, Cleo—He always helps. Now lie down and be happy we have enough here for a few days."

Life had changed for Helmi. The demon of revenge which had embittered her heart had been laid to rest by the hand of God, her friend. In her simple theology God had actually reached down His hand through the blackness of the storm and struck the magistrate dead because he had brought such evil upon her, and to prevent her from committing the crime of murder. God would be her friend for evermore; she would trust Him now whatever came. She had now no more fears for her baby. Lili was in God's keeping—God and the brown-eyed nurse who had spoken so kindly to her.

After a couple of hours of vigorous work Helmi had her house spotless again. Then she lay down to sleep, for a delicious weariness had come over her, and with it a sense of security and peace such as she had never known in all her life before.

"Home and God," she murmured to herself drowsily, "Now I can sleep." It was the middle of the afternoon when Helmi awakened. Cleo was sitting beside her, watching her. The pups were still sleeping. She sat up, shaking out her golden hair. The fire had died down but the house was pleasantly warm.

Outdoors the sun shone brilliantly, and Helmi went out to inhale the delectable odors of spring. How she had missed this in the city! But here it was as poignantly sweet as ever. The wind from the river brought to her the medicinal tang of the Balm of Gilead, pungent and healing, and Helmi's heart responded to it with a throb of love for she remembered the salve her mother used to make of the buds, boiled with clean white lard on the stove, strained through a white cloth and put away in little glass pots for use all the year. As she breathed in the odor reminiscently, from the woods behind the station came the liquid notes of the meadow lark.

(To Be Continued.)

**Fresh Supplies In Demand.**—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

### Might Be Good Idea

Germany Has Suggestion For Checking Reckless Motorist

To check the activities of motorists who travel at reckless speeds, it is suggested in Germany that all drivers should be compelled to install a device that makes a red light glow as soon as the legal speed limit is exceeded.

This idea has apparently followed an invention of a German engineer, who devised a radiator cap light to warn pedestrians at night of the speed at which a car is approaching. Several lights are arranged as a radiator ornament, and for each ten-mile-an-hour increase in speed a different light flashes. At sixty miles a red light glows as a warning signal.

### Little Helps For This Week

"Let all those that put their trust in Thee rejoice; let them also that love Thy name be joyful in Thee."—Psalm v. 11.

I know He is, and what He is, Whose one great purpose is the good Of all; I rest my soul on His Immortal love and Fatherhood, And trust Him as His children should.

—John Greenleaf Whittier.

To know God; to love Him altogether; to live in the light of His countenance; to be satisfied with a little in some directions, because in others we have so much; to receive all things hopefully, because they are from Him; to take the peace of resting in His goodness; to desire all the day long, "Oh that my heart were as Thy heart, and that wholly!"—these are open to us.

—John Hamilton Thorn.

### A TIRED-OUT FEELING

Is a Sure Sign That the Blood Is Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.E. She further says:—"Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I had been taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Given Life Passes On Boats

Captain Koehl, Major Fitzmaurice, and Baron von Huenefeld, who made the first westward Atlantic flight in the Bremen were presented with free passes for all the Hamburg-America Line boats for the rest of their lives by Director Boerger, at Hamburg.

### Minard's Liniment for Insect Bites.

"I see you've given up teaching your wife to drive."

"Yes; we had an accident. I told her to release the clutch and she let go of the steering wheel."

### Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

#### THE "GUM BOIL."

Your child has come running to you one day—suffering pain and has pulled aside his lip to let you see an angry lump on his little jaw. And, since it was just as sore as a boil to touch, you called it a "gum boil."

Or, possibly he had not complained of any soreness then, but one day while scrubbing his teeth, you noticed this lump with a little opening in the centre, reminding you for all the world of a miniature volcano.

And from the "crater," was running a thick yellowish substance, which you knew to be pus.

Now, what had caused this? Just one thing—a dead pulp.

Nor do you have far to seek for the offender, since usually you will find that the tooth just over this sore is badly decayed or broken down with perhaps just the stump remaining.

Then what should be done? For, of course, this condition should receive prompt treatment.

Should the tooth be not too badly decayed, your dentist may think it wise to try to save it; but more often, it should be extracted after the inflammation has pretty well subsided.

Following this treatment, the gum heals over and you congratulate yourself that no harm has been done.

But consider: already serious disturbances may have resulted, in the disease process may have destroyed the permanent tooth germ beneath, to say nothing of the train of evils from the premature extraction of the offending tooth; and from the drainage of the pus into the system during the progress of the disease.

How much better, then, had the tooth received attention during the early stages of tooth decay.

#### What Could Be Clearer

Naughty little Jimmy had been eating green apples, so his mother had to call in the doctor.

"Now my little man," said the kind doctor, "tell me what you think is the matter with you."

"It's like this, doctor," answered Jimmy from his bed of sickness, "you know how you feel when you don't know how you feel? Well, that's how I feel."

#### Relieves Asthma At Once.

If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Physicians are called upon to prescribe for the imagination more often than anything else.

A young lady seldom tired of trying to convert a bachelor to the annexation theory.

## FARMER'S WIFE GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound through the Change of Life. It helps me and I cannot praise it too highly. I was troubled with heat flashes and my limbs were heavy so I could hardly walk to do my farm work. I saw in the newspapers your ad about the Vegetable Compound and thought to give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose."—Mrs. D. B. PETERS, Wilton, Ontario.

## When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.
